

COURSE OUTLINE

(1) GENERAL

SCHOOL	School of Technology		
ACADEMIC UNIT	Department of Environmental Sciences		
LEVEL OF STUDIES	Undergraduate		
COURSE CODE	AE804	SEMESTER	8th
COURSE TITLE	INTERNSHIP		
INDEPENDENT TEACHING ACTIVITIES	WEEKLY TEACHING HOURS		CREDITS
Teaching Hours		-	6
COURSE TYPE	Skills development		
PREREQUISITE COURSES	None		
LANGUAGE OF INSTRUCTION and EXAMINATIONS	Greek		
IS THE COURSE OFFERED TO ERASMUS STUDENTS	Yes		
COURSE WEBSITE (URL)	https://eclass.uth.gr/courses/ENV_U_173/		

(2) LEARNING OUTCOMES

Learning outcomes
Internship is an important part of Higher Education, as it is a way of connecting theory with practice, and actively contributes both to the better utilization of the knowledge and skills acquired by students during their studies, and to their easier and more beneficial integration into the labour market. Upon successful completion of their Internship period, students will have: <ul style="list-style-type: none">• Come into contact with the typical working conditions of an Environmentalist.• Gained experience in applying theoretical knowledge in practice.• Practiced planning, organizing, implementing, and controlling environmental activities.
General Competences
<ul style="list-style-type: none">• Search for, analysis and synthesis of data and information, with the use of the necessary technology• Adapting to new situations• Decision-making• Working independently• Working in an international environment• Working in an interdisciplinary environment• Production of new research ideas• Project planning and management• Respect for the natural environment• Criticism and self-criticism• Production of free, creative and inductive thinking

(3) SYLLABUS

The Internship takes place in the 8th semester of studies and lasts for two (2) months. It is optional and corresponds to two (2) elective courses, i.e. students who decide to implement an Internship attend two (2) elective courses less than students who decide not to implement an Internship. The Internship Regulation of the Department of Environmental Sciences regulates all matters related to it. Specifically, it regulates issues related to: <ul style="list-style-type: none">• The academic and funded context of the Internship.• The right of students to participate.• The process of implementing the Internship.• The steps for preparing the Internship by the student.• The obligations of the students and the host institution/organisation.

(4) TEACHING and LEARNING METHODS – EVALUATION

DELIVERY	Face-to-face	
USE OF INFORMATION AND COMMUNICATIONS TECHNOLOGY	-	
TEACHING METHODS	Activity	Semester workload
	Internship (Work Placement)	150
	Course total (25 hours workload per credit)	150
STUDENT PERFORMANCE EVALUATION	<p>Students' performance is evaluated in the Greek language. The final grade is determined by:</p> <ul style="list-style-type: none">• The Internship Evaluation Report, prepared by students at the end of the Internship period, which forms 50% of the final grade.• The Internship Evaluation Questionnaire, filled in by the Host Organization at the end of the Internship period, which determines 50% of the final score. <p>Final grade = 50% Evaluation Report Grade + 50% Evaluation Questionnaire Score</p>
